

Physical Development

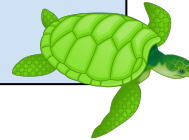

We are developing our fine motor skills by using resources which develop the muscles in our hands and through learning to form our letters. Our PE lessons with Mr Jefferys and Mr Vasey will focus on gymnastics and the children using movement with different body parts to make shapes.

Literacy

We will be reading the story 'Come on Daisy'. The children will learn to retell the story using a text map. Then we will look at sequencing the story and the Reception children will have a go at writing their own version of the book with a beginning, middle and the end.

Reception & pre-school Our Learning Journey Spring 1

Communication and Language

We will be focusing on answers how and why questions and using full sentences.

Understanding the World

We will be looking at People Who Help Us. We will be exploring different occupations and what their roles are within our communities. The children will then think about what they would like to be when they grow up! Children will be using devices to take photographs and then learning how to edit photographs.

Personal, Social and Emotional

We will be focusing on turn taking activities and sharing with small groups of children.

Expressive Art and Design

We will be using wide range of textures - children describe as smooth, rough, bendy, hard and weaves with more fiddly materials. Our weekly music sessions with Mrs Devonport will involve exploring sound and tempo by using different instruments.

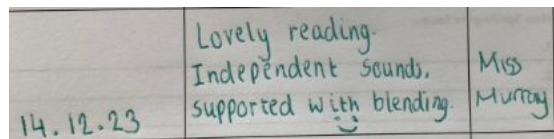

Mathematics

Then we will be looking at the change of numbers within 5. The children will be learning about one less of numbers within 5. We will then move onto learning number bonds up to 5.

Challenge me at home to...

- Talk about the different jobs people in my family do.
- Put my own coat on by putting the hood up and reaching back with my arms.

Please record in your child's home learning book when you have heard them read at home.
